

landline

Landline formed in 2018 when former bandmates Oscar (drums), Justin (bass) and John (guitar) got together with John's long-time friend, James (guitar), and new recruit, Aaron (vocals). Their plan was simple...to play the alternative tunes that had an impression on them during their formative years along with those that continue to shape their collective musical interests today. Although Landline is relatively new as an ensemble, many of its members have over a decade of live experience playing in successful bands within and beyond Southeastern Wisconsin.
